## Details for Teachers

Caring for our mental health is an important part of life. Many of us experience common conditions like anxiety and depression every day. Some mental health conditions can be managed by an individual, while others may need to be supported by health care professionals who provide specialist care. With proper treatment and support, it is possible to maintain or return to good mental health.

### 1. Introduction

The Mercy Foundation Youth Awards is a competition open to high school students across Australia from Years 7 – 12. Each year, the Mercy Youth Awards encourages students to gain an understanding of social justice issues in Australia and how we can work to address these issues. This year our focus is on mental health. This unit can be incorporated into parts of the syllabus including English, Art, PDHPE and RE Studies.
